Refer to page 280. Explain why the geosphere is the largest sphere.

____________________________________________________________________________________

Refer to page 282. List the three layers of the geosphere in order from the center of the earth to the surface.

____________________________________________________________________________________

Using the audio definition provided in frame 4, define the crust.

____________________________________________________________________________________

Explain where the soil on the surface of the earth originally came from.

____________________________________________________________________________________

What is the crust made out of?

____________________________________________________________________________________

What is the name of the second level of the geosphere?

____________________________________________________________________________________

Refer to page 284. Explain why it is so hot within the mantle.

____________________________________________________________________________________

Using the audio definition provided in frame 5, define the mantle.

____________________________________________________________________________________
